EDUCATION

- Pimpri Chinchwad College of Engineering** Pune, India
B.Tech in Information Technology; GPA: 3.28 (8.22/10.0) Nov. 2022 – Jun. 2026
- Pimpri Chinchwad College of Engineering** Pune, India
Honors Program in Deep Learning; GPA: 3.9 (9.8/10.0) Aug. 2024 – Jun. 2026

EXPERIENCE

- Yawnn** Remote, India
Founding Machine Learning Intern Jun. 2025 – Present
 - Data Engineering & Web Scraping:** Engineered Python/Selenium scrapers extracting 5K+ reviews from e-commerce sites. Curated ML dataset with 95% quality score in 2 weeks
 - Recommendation Systems:** Developed vector-based recommendation engine with 87% accuracy using embedding models. Reduced customer decision time by 40%
- Pivotal Teleradiology** Remote, India
Machine Learning Intern May 2025 – Jul. 2025
 - Healthcare API Development:** Built FastAPI backend managing 200+ patient records. Reduced API latency by 10%
 - Medical AI Systems:** Developed Transformer-DenseNet TB detection model achieving 92% accuracy (AUC 0.94) on 100+ X-rays with interpretable heatmaps
- Definedge Securities** Pune, India
Software Development Engineering Intern Sep. 2024 – Dec. 2024
 - API Client Development:** Authored Go client library for trading API with secure authentication and real-time market data. Improved performance by 34% vs Python

PROJECTS

- Autonomous Research Agent (MCP Framework):** Architected deep research agent leveraging Model Context Protocol (MCP) framework, orchestrating LangChain and LLaMA 3.1 (8B parameters) for autonomous research synthesis and structured reporting. Synthesized 50+ research reports automatically, reducing research time by 60% and processing 500+ academic sources with 85% relevance accuracy
- Medical Triage Chatbot (RAG):** Launched LangChain-powered chatbot achieving 76% diagnostic precision on 100+ patient scenarios
- High-Performance ML Package:** Created open-source Python package jackofalltrades for accelerated machine learning prototyping utilizing JAX Just-In-Time (JIT) compilation and parallelization, reducing training time by 35% over scikit-learn across 10+ ML algorithms. Generated 5643+ downloads on PyPI with 4.2/5.0 average rating from 45+ users

ACHIEVEMENTS

- Data Science Competitions:** Placed 3rd/20 and 4th/35 in university-level datathons.
- Kaggle Competition Rankings:** Top 2.4% (39/1600) Digit Recognition Challenge, Top 11.3% (269/2390) Insurance Regression Challenge, Top 23.8% (3800/16000) Titanic Challenge.
- Open-Source Contribution:** Contributed to Google's Flax library.
- Hackathon Leadership:** Organized and managed AlphaByte 1.0 national hackathon with 900+ participants across 300+ teams. Led logistics, mentorship, and problem curation

CERTIFICATIONS

- Coursera Machine Learning Specialization:** Grade 99.75%
- Coursera Generative Adversarial Networks Specialization:** Grade 99.5%
- Coursera Deep Learning Specialization:** Grade 97.01%

PROGRAMMING SKILLS

- Programming Languages:** Python, Go
- ML/AI Frameworks:** TensorFlow, PyTorch, JAX, Flax, Scikit-Learn, Langchain, CrewAI, MCP, Langgraph, vLLM, TensorRT, Qdrant, Pinecone, FAISS
- Tools & Databases:** Git, Docker, ONNX, MLflow, DVC, MySql, Kubernetes, Jenkins
- Web Frameworks:** FastAPI, Gin, HTML, CSS
